

# Penguin Power!

## Key Stage 1

The penguins that live at the Wildlife Park are called Humboldt penguins. They are not the sort that live at the South Pole. They come from Chile and Peru.

Penguins can't fly. They can't run fast on the ground. They are **AMAZING** swimmers - even underwater!

Can you write the correct words in the boxes to label Percy the penguin?

beak   wing   webbed feet   tail   head   spotty tummy

Can you colour in these foods, then pick out the right food for Percy? Draw a circle round it.

# Make Percy the Penguin!

You will need: 1 toilet tube, scissors, and glue, and an helpful adult!

- 1 Carefully cut out all the pieces
- 2 Stick **A** onto the tube to form the tummy
- 3 Stick **B** around the tube and glue at the back.
- 4 Fold the feet and beak, and glue the tabs, then stick into place
- 5 Stick the wings **C** on (you might want to colour the back of the wings in black)
